PIXEL FLAGS

THE ULTIMATE COLLECTION

Hey there, and welcome to Pixel Flags: The Ultimate Collection!
Thanks for grabbing our collection!

Thank you for choosing our extensive pixel art flag collection. With over 250 designs representing continents and countries around the world, these flags are perfect for adding a unique, international dimension to your projects.

What's in the Package?

- Paint.net File: For those who love using Paint.net, we've got you covered with a layered file.
- Pixelorama File: If Pixelorama is your go-to, check out the file we made for you.
- Photoshop File: Layered PSD file for those who prefer Photoshop for editing and customisation.
- Layered PNGs: In the 'Layers' folder, you'll find separate PNG files for each layer. These are great for mixing in any software or game engine you prefer.

Using the Flags

Here's a quick guide on how to use these in your projects:

In Paint.net & Photoshop
1. Open the provided file.
2. You'll see different layers for each part of the vases.
3. There's a 'Custom' layer for your own designs.

In Pixelorama
1. Load the Pixelorama file.
2. All layers are ready for you to experiment with.

With Layered PNGs
1. Head to the 'Layers' folder.
2. Use the individual PNGs in your favorite software or game engine.
3. Mix, match, and create!

About using and sharing this asset pack

Feel free to use this asset pack in any project you're working on. The only no-no is selling them as standalone assets or part of a collection. And hey, if you want to give us a shoutout, we'd love it, but no pressure.
